

ECOLOGICAL PACKAGING PRODUCER

SoFruPak

natural choice

No. 1
in Europe

Our packaging are made from renewable raw materials and are 100% biodegradable after 24 weeks!

**NATIONAL AND INTERNATIONAL EXPERTS HAVE RECOGNIZED
our innovative packaging solutions and the benefits they provide.**

Nominated for
**FRUIT LOGISTICA
Innovation Award
2017**

red dot design award

**WORLDSTAR
WINNER 2017**

Our business partners:

We manufacture innovative and personalized cardboard packaging solutions dedicated to berries and other fruits.

Packaging Solutions from SoFruPak are manufactured for planters who:

- Produce the highest quality fruits.
- Want to stand out in the market place.
- Want to attract customers with aesthetically pleasing, colourful and environmentally friendly packaging.

We recommend our packaging solutions to eco-farms, major regional producers of fruits and supermarkets.

What are the benefits of using SoFruPak packaging?

THE COOLING PROCESS FOR FRUITS IS FASTER AND MORE EFFICIENT

Thanks to the innovative construction and multiple ventilation openings, your fruits will cool faster which preserves their longevity and taste qualities. SoFruPak and SoFruMiniPak packaging solutions, combined with the innovative SoFruBox container, create a revolutionary packaging solution for the efficient cooling of fruits.

PROTECT THE ENVIRONMENT

Compared to the packaging available on the marketplace we use only FSC certified raw materials.

Our packaging are made from renewable raw materials and are 100% biodegradable after 24 weeks.

They are the perfect alternative to PET Packaging in the pro-ecological European trend.

INVENTION

SoFruBox System packaging has the potential to revolutionize the packaging of soft fruits.

The innovative features of SoFruPak address the shortcomings of the available packaging in the marketplace. The use of genuine SoFruMiniPak EcoView packaging assures you, your customers and your fruits, the highest quality and most innovative & ecologic packaging in the industry.

IMPROVE LOGISTICS

Of special note is the SoFruPak cardboard container offered folded flat. Thanks to the innovative construction, unfolding takes a few seconds involving two quick easy moves.

PROMOTE YOUR BRAND

SoFruPak and SoFruMiniPak packaging solutions enable you to differentiate your products from other producers on the market.

*Don't use plastic
now you don't have to!*

WARNING: SoFruPak and SoFruMiniPak packaging are protected industrial design. Any attempt to copy these inventions is illegal and will be subject to legal proceedings and severe financial penalties will be sought.

SoFruMiniPak^{RCD} EcoView+ series

100% ecological packaging

Note: The cardboard and cellulose film can be recycled together and are 100% biodegradable after 24 weeks!

- BENEFITS:**
- 100% biodegradable cardboard closed packs (with lids)
 - quick and easy closure of the packaging, it does not require the use of expensive machines or devices
 - the ability to adjust the size of the packaging to a customer's needs with the use of existing sorting and packaging machines
 - available in capacity: from 125 g to 500 g
 - designed for use by small individual fruit producers as well as fruit packers, ideal for the supply of product to retail chains

They are the perfect alternative to PET packaging in the pro-ecological European trend.

No. 1 in Europe

IMPORTANT:
to glue all our packaging we only use water-based adhesives (not hot-melt)!

Don't use plastic now you don't have to!
