The SoFruBox[®] System is an efficient way to cool fruit

SoFruBox[®] together with SoFruPak[®] containers
in 0.25, 0.50, 1 and 1.75 kg sizes form a packaging system

Advantages of using the SoFruBox[®] system:

1. Faster cooling of fruits, design offers low cooling resistance.
2. High strength box construction.
3. The boxes are folded flat for ease of transportation and storage.
4. The box design is optimized for palletizing.
5. Cost effective in logistics.
6. Ease of assembly.
7. Innovative design.
8. The box is 100% recyclable.
9. Short lead time on order delivery.
